Commendation of Analysts Responsible for

25X1

25X1

2. We wish, particularly, to commend the analysts responsible for this report.

They deserve high praise for an excellent job of analysis and reporting.

25X1

3. We do feel, however, that the Report would have been more valuable had it been published in a more timely fashion. It is our understanding that research on this report was substantially completed by April 1958, and, according to a status report on PROD Requirement 65-58, dated 10 June 1958, it was scheduled for publication in June 1958. Despite repeated requests by CIA representatives for prompt publication, the Report was not published until 21 January 1959. We hope that any future reports of this nature will be of the same high quality as this report but will be made available to consumers on a more timely basis.

4. It is requested that this expression of our appreciation be transmitted to the personnel concerned.
